

# Release Agents

## Antique Release Colored Bond-Breaker

Brickform Antique Release is a hydrophobic powder that imparts color while serving as a bond breaker for stamping. It is made from a finely ground formula that creates beautifully antiqued concrete surfaces. During the stamping process, Antique Release is pressed into the concrete surface, creating a secondary coloring effect once washed off and sealed.

- 800 to 1000 ft<sup>2</sup> per pail.
- Prolongs tool life
- Fade-resistant
- Unlimited effects and color combinations

RA- 42 Standard Colors (Including black and white) 5 Gallon Bucket

## Liquid Release Colorless Bond-Breaker

Brickform Liquid Release is a colorless release agent formulated and recommended for use with Brickform texture mats or concrete stamping tools. Liquid Release forms a barrier that prevents imprinting tools from sticking to the concrete surface during the stamping process. It is commonly used on interior applications in place of powdered release or where final projects require topical stains or coatings.

- 150 to 250 ft<sup>2</sup> per gal
- Easy to apply
- Interior or exterior applications
- Minimizes wear on tools
- Clear liquid
